

SECTION XII--INTERPRETATIONS

ACCOUNTING INTERPRETATION NO. 14

Subject: Accounting for Grant Revenue

GASB 33 establishes accounting and financial reporting standards for shared grant nonexchange revenues. In a nonexchange transaction, a government gives (or receives) value without directly receiving (or giving) equal value in return. There are two classes of nonexchange transactions which relate to grants:

- 1. Government-Mandated Nonexchange Transactions**
- 2. Voluntary Nonexchange Transactions**

On these types of nonexchange transactions, revenues and expenditures should be recorded when all applicable grant eligibility requirements are met. For transactions in which the provider requires the recipient to use the resources in or beginning in the following period, resources provided before that period should be recognized as advances by the providers and deferred revenues by the recipients.

Federal and state grants are usually either nonreimbursable grants or expenditure-driven grants. Nonreimbursable grants are usually received up front and recorded as revenue at the time of receipt and not contingent on incurring an expenditure. Expenditure-driven grants are nonexchange transactions which require revenue to be recorded after the expenditures are incurred and are equal to the expenditures.

The following entry would be used to record the nonreimbursable type grants:

1.	Cash	xx	
	Revenue		xx

To record the revenue collected as it is receipted.

Expenditure-driven grants should recognize revenue when the associated expenditure is incurred. For grants where the cash is received up-front the entries would be as follows:

1.	Cash	xx	
	Deferred Revenue		xx

To record the cash for a grant in which no expenditures have yet been incurred.

2.	Expenditure	xx	
	Cash		xx
	Deferred Revenue	xx	
	Revenue		xx

To record grant expenditure and to adjust the revenue to record that portion of deferred revenue which has been earned by incurring the expenditure.

SECTION XII--INTERPRETATIONS

Expenditure-driven grants that operate on a reimbursement basis should be recorded as follows:

1.	Expenditures	xx	
	Cash		xx
	Receivable	xx	
	Revenue		xx

To record grant expenditure and to record grant revenue and a receivable from the granting agency equal to the expenditures incurred.

The preceding was based on the assumption that the grant expenditures occurred prior to December 31. Therefore, the revenue is also recognized and a receivable is established and will be reported at year end in situations where reimbursements are received in the subsequent fiscal year.

The schedule of federal financial assistance should be prepared to reflect the federal share of grant expenditures on the same basis of accounting as the financial statements, unless footnoted to the contrary.
